Pinot Rosé

2025 | BANNOCKBURN

mora
CENTRAL OTAGO

Perfumed
Summer Berries
Delicate

Vintage Notes

The season began with a significant frost event, which naturally reduced yields and set the stage for concentrated flavours. Early spring brought slightly above-average rainfall, supporting healthy vine growth, followed by an ideal flowering period that was fast and uniform. The second half of the season transitioned into warm, dry conditions, creating excellent ripening potential.

Harvest commenced on 12 March with fruit for sparkling wine and continued at a measured pace across our six sites, allowing each block to reach optimal flavour development. Careful timing and attention in the vineyard ensured vibrant aromatics and balanced acidity, resulting in wines that reflect the elegance and freshness of Central Otago.

Winemakers Notes

The 2025 Mora Rosé opens with an alpine freshness that immediately signals its delicacy and purity. Aromas of strawberry, red currant, and rose petal rise from the glass, layered with a subtle lift of just-crushed Provençal herbs that adds an intriguing savoury edge.

The palate is bright and finely poised, carrying cranberry and juicy red berries with a faint herbal nuance that brings the wine into seamless harmony. Crisp, lively acidity

Technical Notes

Composition: 100% Pinot Noir

Vineyard: Felton Terraces, Bannockburn

Row Orientation: East-West

Soil: Young alluvial, schist-based sandy silt and loams overlaying schist rock

Elevation: 240m

Trellis system and pruning: VSP, spur

Vinification

The fruit for this wine was picked in the cool of the morning to preserve freshness and aromatics. The grapes were whole-bunch pressed directly to tank, with no skin contact, ensuring a pale, delicate colour and purity of flavour.

The juice was settled for 48 hours before a cool, temperature-controlled fermentation, maintaining bright fruit expression. Following fermentation, the wine spent three months on lees to build subtle weight and texture.

Vineyard/s	Harvest Date	Bottling Date	Qty Bottled	Vegan	Alc	TA	pH	Residual Sugar
