

Coral

Coral Pendant is based on one of the geometric polyhedra that have interested David since he was a boy. The intricate form is made from just one single component repeated 60 times. Originally designed purely as an experiment, it only became a light later when David tried to find a use for it by putting a bulb inside.

The plywood finish can be all natural or painted creating a wide range of colour options. Coral was David's first lighting design which now is considered to be a design classic.

Features

Shipped Kitset

Seed System kitset lightshades are on average 1/30th of the volume of the assembled light. This aims to help minimize the effects of shipping and to reduce the design's environmental footprint.

Light sizes

David Trubridge kitset lightshades come in various sizes, making it easy to find the right size to any interior space whether it's small or large.

Compliance

CE

AS/NZS

(Declarations of conformity available on request).

EPD Certified

An EPD is a standardised and verified way of quantifying the environmental impacts of a product, based on a consistent set of rules that have been developed through a stakeholder consultation process.

Care Instructions

All wooden and/or polycarbonate lights are intended for use in dry interior conditions only and can be cleaned with a soft cloth dampened slighty in warm soapy water when the light is switched off. Do not use detergents.

Warranty

This light is warranted for three years from date of purchase for failure of parts.

You will need:

Fixings for cone gripper (fixing screws NOT SUPPLIED).

Note: Choose appropriate hardware to attach base plate (Fig.1) to ceiling substrate.

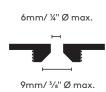

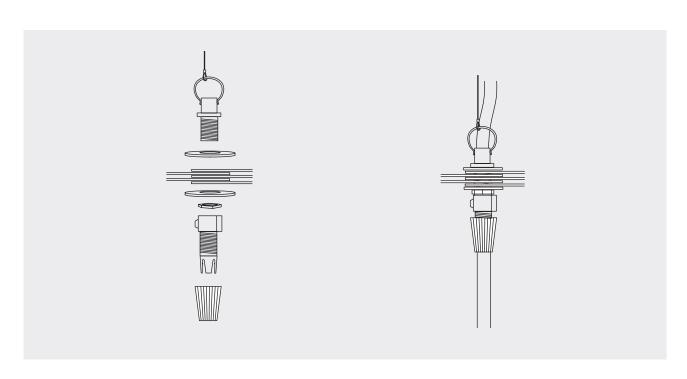

Fig 1. Base Plate

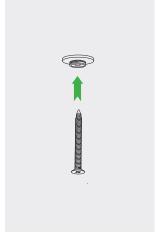

Installation 1000mm/39" 1200mm/47" 1600mm/63"

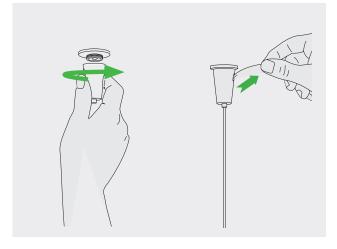

Follow the order of each component in diagram. Adjust the bulb / lamp to mid way in the pendant lightshade shown in Step 2 and then tighten.

Step 2.
Unscrew baseplate.

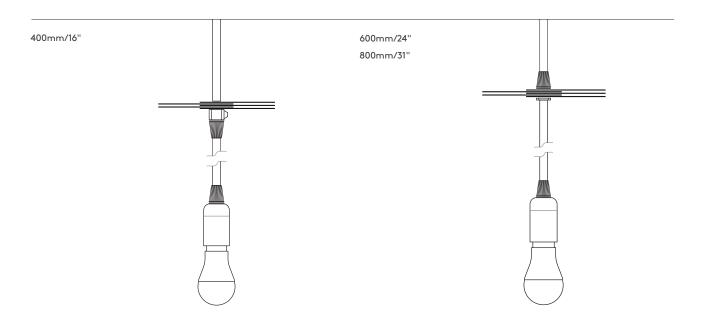

Step 3.
Use appropriate fixing screw to mount base plate (Fig.1).

Remove cable from cone. Screw cone back onto baseplate. Re-insert cable and level light. Once desired position is set, trim excess cable.

Finish Choices

Bamboo

All bamboo (our primary material) is secondary product, from renewable forests in China grown as a food source. We have visited these plantations and are satisfied with the quality of their systems.

Painted Lights

We use an acrylic low VOC (volatile organic compound) paint that is made in New Zealand. Colour swatches are available in all retailers. See the Resene website for more info. www.resene.co.nz
